## SKILLS

From Orienteering to Wilderness Survival, the Scouting Advancement Program allows you to develop many of your skills and talents. This wide array of outdoor skills includes: first aid & CPR; pioneering knots & lashings; fire building & outdoor cooking, fishing and fish preparation, backpacking and backcountry camping, sailing, canoeing, kayaking, snorkeling & lifeguarding; plant and animal identification; atomic energy, chemistry, physics, geology & astronomy. Scouting also gives you an opportunity to develop leadership skills. At Scout camp, you can gain a tremendous amount of knowledge and skills that you'll take with you for the rest of your life!

## FUN

Of course, the highlights of our program are all the exciting outdoor activities that will really knock your socks off! Race down wild stretches of the Delaware River, knowing how to maneuver through the rough rapids. How about rappelling down a cliff or scaling a climbing wall? Build your very own wilderness survival shelter in the woods and sleep in it. Shoot to your heart's content at the archery range! Experience the "squishy" thrill of a mud bog! Enjoy hiking, mountain biking, and camping along a 50 mile trail, passing beautiful lakes and streams. With overnight hikes, "heartzige" campfire kumzitzes, and plain old outdoor fun, we're sure you'll enjoy the entire summer here at Keshet!

## SAFETY

In all of Keshet Scouting's rugged adventures, safety is our number one concern. Our camp activities are all run under the auspices of a staff trained and certified by the Boy Scouts of America's National Camping School. These staff members assure that all equipment is safe, and that the boys understand all safety rules before they begin any activity. Boys are also taught how to safely care for, and sharpen wood tools. They are then taught how to safely use pocketknives to whittle wood and cut rope, and how to safely use axes and saws to prepare firewood and build pioneering projects. This focus on safety extends to all other areas such as campfire building, swimming, boating, mountain biking, archery, rock climbing, and rappelling.
